

# Snelling Engineering Shepparton expands services

**SNELLING ENGINEERING...** This is your "One stop shop" for quality engineering and reliability. No matter the size of the project, large or small, Steve and his team will give 100%.

SNELLING Engineering, Shepparton has recently expanded their range of services they offer to include specialist material processing. Here, Steve Snelling explains what makes Snelling Engineering so special. "Both John and myself are very hands-on, so the people you speak to are very involved with getting your job done. We have an excellent crew who have a diverse range of experience and skills and they take great pride in their work and strive to engineer quality products. Snelling Engineering offers a very diverse range of services and are happy to undertake small one-off jobs to large project work. The same amount of professionalism and attention to detail goes into every job we do no matter the size. We have quality equipment to process material from small jobs to large material processing such as the sectional roller. We

offer professional advice, maintain excellent quality control and we believe we are cost competitive whilst offering superior service because we understand the importance of delivery times and do whatever it takes to get the job done right first time and on time.

We offer small business one-on-one service but with big business professionalism. We are continuing to grow and diversify and are now in our fifth trading year since purchasing J. Murphy Sheetmetal in July 2003."

If you need it guillotined, pressed, cropped, punched, rolled or welded, give the team at Snelling Engineering a call on 5821 0776 or call in and see them at 29 Telford Drive, Shepparton.

# Hyundai drives GOTAFE apprentices to learn

HYUNDAI Motor Company Australia Pty Ltd has kindly donated a \$25,000 Hyundai 4WD Tucson 2004 motor vehicle to Goulburn Ovens Institute of TAFE's Automotive Department. The driving force behind the donation is so Apprentices studying the Certificate III in Automotive (Light Vehicle) get up to date experience using the current trends of the automotive industry.

GOTAFE Automotive coordinator Glenn Hocking explained, "This is a great opportunity for our regions Automotive Apprentices to learn advanced skills with modern vehicles. By examining this vehicle, students will gain an understanding of the vehicle operations, electronic power control systems and late model vehicle EFI fault diagnosis."

Mick Higgins Shepparton Hyundai Service Manager states, "It's great to see this sort of support for the country areas. The region is lucky to have this specialist vehicle training as it is more common for manufacturers to send training equipment to the City."

The former Service Manager of Shepparton Hyundai joined up with other Hyundai Dealers of the North Eastern Victoria to advocate Hyundai to deliver some training in country Victoria. Hence, Hyundai approached GOTAFE to use class room and workshop facilities to deliver training. Consequently, GOTAFE teachers get the opportunity to further their experience with the latest trends of the automotive industry technologies.

For more information about courses in the Automotive sector, please phone 1300 GOTAFE (1300 468 233) or visit [www.gotafe.vic.edu.au](http://www.gotafe.vic.edu.au)

## WE LOVE OUR NEW APOLLO PATIO

Although we had some idea of what we wanted for our outdoor area, Jason helped us create a design that we love and without a shadow of a doubt added value to our property. Allan, the Installer, was friendly and helpful during construction. Our outdoor area is now bright and comfortable and we can enjoy it rain, hail or shine.

**Colin and Joan Bond - Mooroopna.**

Take advantage of the Apollo Patios guarantee of service, quality & workmanship, call me and start building a better lifestyle today!
